## Fish And Game Ass'n Off To A Good Start For The Season

### Bigger Membership Now Put Over Province's Biggest Rural Branch

The following have subscribed to the "Pheasant" fund:

|                |        |
|----------------|--------|
| A. G. Plunkett | \$5.00 |
| J. A. McGhee   | 3.00   |
| W. H. Davies   | 3.00   |
| W. D. Archer   | 3.00   |
| D. Dippel      | 3.00   |
| F. Moyle       | 3.00   |
| H. Ross        | 3.00   |
| G. H. Liesemer | 3.00   |
| C. F. Dooley   | 3.00   |
| G. Julien      | 3.00   |
| H. C. Liesemer | 3.00   |

Anyone wishing to subscribe to this fund or to become a member, kindly see Dr. H. C. Liesemer or George Julien.

Following are members of the Didsbury Branch, Fish and Game Association:

J. A. McGhee, W. H. Davies, D. Dippel, G. Julien, W. A. McFarquhar, H. C. Liesemer, G. H. Liesemer, J. Hosegood, Frank Moyle, Hugh Ross, C. S. Mortimer, C. E. Reiber, F. Budgeon, J. S. McCloy, F. Gaufman, C. Dickau, E. T. Shorman, C. H. Adahed, C. F. Dooley, A. McNaughton, Geo. Watson, W. D. Spence, W. H. Herbert, Geo. Smith, J. H. Fleury, A. V. Buckler, J. W. Wordie, H. Lee, D. M. Sinclair, L. G. Park, Roger Barrett, H. Roberts, A. W. Axtell, Wm. Pitt, Ivan Weber, J. B. Wothington, W. D. Archer, J. McDougall, John Manson.

## OBITUARY

Magdalena Hiestome Snyder was born on January 18th, 1857 near Preston, in the county of Waterloo, Ontario, and departed this life at Didsbury, Thursday, June 13th, 1929, at the age of 72 years, 4 months, 26 days.

On July 4th, 1875 she was united in marriage to Levi C. Snyder. God entrusted to their care a family of seven, Norman, Abram, Amsey, Ervin and Clayton; Leander and Linean deceased. Her husband predeceased her eight years ago.

She leaves to mourn her loss five sons, eleven grandchildren and six great grandchildren, one brother and one sister, as well as many other relatives and friends.

Mrs. Snyder was one of the pioneers of this district, coming from Breslau, Ontario, with her husband and family to Didsbury in the year 1902.

The funeral services were held from the Evangelical Church, Didsbury, Sunday, June 16th, the Rev. C. J. Hallman officiating. Interment took place in the Didsbury cemetery.

## LOCAL & GENERAL

Mr. and Mrs. Geo. Foster of Carstairs were visitors at Mr. and Mrs. Stewart Tighe's on Monday.

Tourists are now moving. Teskey's wrecking car is being called out quite often these days.

Roger Barrett, who has been laid up with a sore hand, is back on the job again.

Mr. and Mrs. C. Studer and Mrs. A. G. Studer were Calgary visitors yesterday.

## Plan To Attend Weed Conference At Olds Wednesday, July 3

The Field Crops Branch of the Department of Agriculture, Edmonton, advises us that weed conferences are being conducted in five different centres in the province in the near future. For the benefit of farmers and others in this district interested in the subject, the conference in this section of the province is being held in the School of Agriculture, Olds, July 3. The public is cordially invited to attend any or all of these conventions, and the Department hopes that Councils and Weed Inspectors will be well represented. For particulars write the Principal, School of Agriculture, Olds.

## Baseball Games For The Coming Week

Didsbury at Olds, June 21.  
Red Deer at Didsbury, June 24.  
Didsbury at Red Deer, June 28

Wm McCoy's trucks are hauling pipe to the Turner Valley Oil fields.

Messrs. Jim Halton and Ted Brown motored to Camrose over the week-end.

Jim Cathness' truck was forced to make two trips to Calgary on Tuesday. Business is looking good.

Miss Annie L. Johnson of the local high school staff is leaving tomorrow (Friday) for Truro, N.S., to visit her parents and friends.

Mr. and Mrs. Roger Barrett's children, who have been ill for the past few weeks, are now making rapid progress towards recovery.

Mr. and Mrs. W. J. Sheidt left on Monday for Hillsboro, Ore., to spend a month's holiday visiting with relatives.

Special rates for families who contemplate joining the Tennis Club. Two fine courts are now in use. The bigger the membership the better the club.

Mrs. J. Boorman, who was called to Olds Sunday last on account of the illness of her mother, Mrs. W. Stock, reports that she is much improved.

## Local People In Auto Smash In Ontario

Last Sunday night, about 10:30, as Mrs. E. V. Kalbfleisch, with her sisters, Mrs. J. V. Berscht and Mrs. L. Kalbfleisch, and her sons Orville, Claude and Grant, and her niece, Joan Berscht, were returning home from Woodstock in their Ford Sedan, a Chevrolet cabriolet, driven by Elmer Dahms, collided with them opposite J. G. Thomson's farm on the Elora Road. The occupants of the Ford say that they noticed the Chevrolet approaching on the wrong side of the road, and the driver, Claude Kalbfleisch, applied the brakes and brought his machine down to ten miles an hour. The Chevrolet driver, noticing his position, pulled off to the right, but not quickly enough to avoid a collision. Orville Kalbfleisch was thrown into the windshield, and his nose was terribly crushed and cut, four stitches being inserted to close the cuts. Mrs. Berscht was thrown from the rear seat to the front of the car, sustaining facial bruises and badly gashed ankles. Her daughter, Joan, received a gash in her head which required stitches to close. The other occupants of the Kalbfleisch car were badly bruised. A passing truck hurried them to Dr. Carpenter's office in town. Mr. Dahms was accompanied by his brother, Emmanuel but neither of them were badly hurt. Both cars were pretty badly wrecked, and are now undergoing repairs.—Mildmay Gazette.

## FARM HELPS

Farmers, perhaps, do not realize the free service offered them by the Departments of Agriculture, of both the province and the Dominion in the supplying of booklets and pamphlets to better his condition. The Federal Department, at Ottawa, especially, has literature on practically any subject, which is free for the asking. Staffs of experts are maintained and the results obtained at the various experimental farms and stations in Canada are passed on to the Canadian farmer. The Alberta Department of Agriculture at Edmonton, have for distribution their latest publications, viz.: Alberta's Weed Problem; Weeds Poisonous to Livestock; Building Up a Dairy Herd; Soil Cultivation; Practical Irrigation in Alberta; The Plowing Match; Sheep in Alberta; Meat Curing on the Farm; Alberta Poultry Bulletin; Turkey Breeding and Management; Housing of Swine. Address the Publicity Branch, Department of Agriculture, Edmonton. When sending to Ottawa for literature on any subject, address The Publications Branch, Department of Agriculture, Ottawa Ont.

## Coming Events

Olds tennis club jitney dance, Friday, June 21st, in the Olds curling rink. Music supplied by Elks 7-piece orchestra. Refreshments at the rink. Dancing starts at 9 p. m. 1000 dancers needed.

A hot supper will be served in the basement of the Knox United Church from 5:30 to 8 p. m. Saturday, June 22. Everybody welcome.

Remember the Didsbury Pioneer and Old Timers re-union on Wednesday, June 26 on the fair grounds. Bring your picnic lunch at noon. Coffee will be furnished free on the grounds. A program of song, speeches and sports will follow. You and your family are invited.

Westcott community picnic will be held on June 28th, at Westcott school. Ladies please bring lunch baskets. Big dance at night in Rinehart's barn. Crossfield five piece orchestra. Everybody welcome.

Westerdale annual sports day and picnic, Thursday, July 18th.

## Crossfield Baseballers Win 15 Of 16 League Games This Season

### Didsbury Provides Excellent Fare For Opposing Teams; Tie With Carstairs 7-7

Carstairs 7, Didsbury 7

The most exciting game of the season was played on the local diamond Wednesday evening last week with Carstairs as visitors. Each team had a veritable merry-go-round in the ninth inning. Carstairs scored four runs, making the score 7-4. Things looked hopeless for the local welders, but they got on one of their batting rampages, scoring six runs and tying the score. Owing to the oncoming darkness the tie was not played off. Studer was on the mound for the locals, and Mathieson and D'Arcy for the visitors.

Crossfield 7; Didsbury 5

Didsbury's baseball nine did not stop Crossfield's winning streak Thursday evening on the local diamond. Crossfield thus far has won 14 of 15 games played and have been dubbed "The Million Dollar Team" by the editor of the Innisfail Province.

Williams the Crossfield pitcher was throwing nice ball until the fourth inning when the locals secured 5 runs. He was then relieved by Guertin who held Didsbury for the rest of the game to two hits and no runs. Mix the local pitcher made the first home run of the season.

Monday evening at Crossfield the local baseballers went down to defeat by the score of 14-3. Crossfield scored eleven of their runs in the sixth and seventh innings and up to this time Didsbury was leading by two runs. E. Guertin of Crossfield knocked a three base hit in the seventh inning with three men on bases, a heart breaker for the locals. Hugh Lee relieved Mix on the mound in the eighth and held Crossfield scoreless. Johnson pitched the whole game for the southern town.

## J. V. Berscht's Big Sale of Bankrupt Stocks

### Has Bargains Galore for Everybody

A few of the many bargains  
we have in store for you--

## The Charter of Anglo-Saxon Liberties

When King John, of England, placed his seal upon that historic document Magna Charta, on June 15, 1215, the date went into history as that of the "greatest of all events in the political development of modern freedom."

Nearly 700 years after the signing of the Great Charter of Liberty, a movement which had its inception in the United States gave birth to the International Magna Charta Day Association, with headquarters at St. Paul, Minn. The main objective of this organization is to have June 15 of each year observed as "Magna Charta Day," or "Inter-Dependence Day," in all the English-speaking nations of the world.

Observance of the day and of the charter which is the common heritage of these English-speaking nations is urged by the Association as an expression of the recognition of the common tie that binds these nations and the common debt they owe to those responsible for the Great Charter which is the foundation of modern ideals of liberty. The Association urges observance of the day also as a means of cementing the friendship and promoting mutual understanding between these nations which, speaking the same language, and having the same ideals, are acknowledged to be the greatest forces extant for permanent world peace. Magna Charta provides that basis of unity which these nations can commemorate. Its signing was an epoch-making incident in their common history concerning which no clash of opinion is possible. One American commentator says: "The yearly observance of Magna Charta Day not only helps to keep vibrant this Anglo-Saxon International Good Will but it serves to set out in sharp relief a wholesome example to the wide world."

The alternative title, "Inter-Dependence Day" itself is an acknowledgment that American ideals of freedom have the same fundamental basis as those of the British Nations, including Canada, and it is interesting to note that since the Association first was organized, the Day is observed annually in the United States, Canada, Newfoundland, the British Isles, Australia, New Zealand and South Africa. That is, the nations which trace their laws back to the historic document forced upon King John by the Barons of England, join in remembrance of the freedom it has conferred upon all. Says J. W. Hamilton, Founder-Secretary of the Association: "More and more it has become the Inter-Dependence Day of the English-speaking countries, as men have come to understand the Inter-racial kindness its recognition indicates."

"The thought is American-born, a gesture of deference to the acknowledged fount of freedom, and a tender of goodwill to other English-speaking lands of the earth."

The Day is not observed as a legal holiday, but as one of remembrance. Teachers in the public schools, wherever the Day is observed, emphasize the significance of Magna Charta to their pupils, and explain its significance in the lives of all residents of English-speaking countries. In many places, too, it is supplemented by setting aside the nearest Sunday to June 15, as "Magna Charta Sunday" on which by pulpit reference or Sunday School lesson the goodwill which is the central feature of the observance of the Day is given prominence. It might as well be the basis of a valuable lesson in British ideals for the cosmopolitan people of Canada—and for that reason it is interesting to note that Canada as a nation has endorsed the idea of Magna Charta Day.

Briefly stated, Magna Charta established trial by jury, restrained the Crown from using harsh and arbitrary methods of raising money, virtually placed control of taxation in the hands of the people, gave protection to minors and widows, established uniform weights and measures, limited fines and protected merchants, established the law of evidence, and, generally, assured the rights and freedom of the subject. These are the most important features of that charter which occupies so conspicuous a place in history and which established the supremacy of the law of England as the controlling power over the people.

The 39th article of the charter which is the basis of jury trial, declares "no man shall be taken, or imprisoned, or outlawed, or banished except by the lawful judgment of his peers." Another short article is significant of the desire for justice for all. In it, the King declared: "To no one will we sell, to no one will we refuse or delay, right or justice."

### Waterton Lakes Famous For Trout

Excellent fishing may be enjoyed in the National Parks of Canada, especially in the Waterton Lakes Park, Alberta, which is famous for its trout. Specimens of trout weighing as much as fifty pounds have been taken from Waterton Lakes.

### Irrigation Cost Runs Into Millions

Construction cost of 10 major irrigation projects now operating in Southern Alberta amount to about \$31,500,000, or an average cost of approximately \$31 per acre for the area or slightly more than one million acres.

## FLU Germs Breed In the Throat.

First: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

### SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

## Telephones In Canada

Dominion Is Served By 2,462 Separate Systems

There are 2,462 telephone systems in Canada. Five of these are government owned, Alberta having two, and Ontario, Manitoba and Saskatchewan, one each. Municipal systems number 138, of which 123 are in Ontario. There are 496 private company systems, mainly in Ontario and Quebec, and 1,552 co-operative, of which 1,180 are in Saskatchewan. In addition, there are 169 private and 102 partnership systems. The number of telephones installed totalled 1,259,987, when a recent compilation was made, the estimated number of conversations made in one year totalled 2,108,400,000, including 31,400,000 long distance calls.

## ST. VITUS DANCE

A Disease Of The Nerves Which Must Be Treated Through the Blood

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble to be successful is through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe forms of this trouble, because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of the value of Dr. Williams' Pink Pills in cases of this kind we have the statement of Mrs. William Stead, Winton, Ont., who says:—"My eldest girl at the age of nine years suffered from an attack of whooping cough which left her very weak, and finally developed into a severe attack of St. Vitus dance. She was under a doctor's care, but with no beneficial results. We also tried other treatment, but with no better results. To make matters worse, she was taken down with measles. Again the doctor was called in, as she became so weak, and her limbs so trembly that we had to take her about in a little hand wagon. I thought a change of air and scene might help her, so we sent her by boat to Port McNicol, a distance of about a hundred miles. She seemed to improve while there, but as soon as she came home her strength was gone again. I took her to another doctor, but with no better results. I was distracted to see how helpless she was becoming, so decided to give Dr. Williams' Pink Pills a trial. I got six boxes, and they did what neither doctors nor other remedies had even started to do. They built her up completely; the St. Vitus dance disappeared, she has no sign of weakness and can run and play with the other girls, a thing she could not even try to do for about eighteen months. She walks to and from school, a distance of about a mile, which, of course, is proof of her present good health. I have much to praise Dr. Williams' Pink Pills for, and always recommend them in all cases of weakness." You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Wheat Acreage

It is estimated that nearly 25,000,000 acres will be sown to wheat in Canada this year. Last year we had 24,114,846 acres sown to wheat, and the total production was 533,571,000 bushels, an average of 22.1 bushels per acre.

**Attacked By Asthma.** The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

### Motion Pictures Of Northern Scenes

Arriving at The Pas, Captain Charles Sutton, pilot and party have completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Fort Churchill. Motion pictures of the northern scenes and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

### Columbia Ice Fields

The melting waters from the Columbia ice-fields in Jasper National Park feed the sources of three of the largest and most historic rivers in the Canadian West—the Athabaska, the Saskatchewan, and the Columbia, which flow into three oceans.

For sunburn—apply Minard's Liniment.

W. N. U. 1788

## Good Friend To Trappers

Radio Makes Life In Northern Wilds Less Lonely

The trapper's life in the wilds of northern and central British Columbia is not the lonely existence it used to be, for the radio is keeping the isolated cabin homes of these forest nomads closely in touch with the world's activities.

The radio has been a wonderful boon to the Canadian trapper and only the lowliest of them have not equipped themselves with radio sets. Indeed, owing to the distance to be covered and the various technical difficulties to be overcome to obtain satisfactory reception, most of them have bought powerful sets. No longer does the trapper find that nights are made for sleep alone. After following the trapline all day the modern trapper spends the evenings in his cabin smoking his pipe and listening to the news of the day and the orchestra broadcasts from hundreds of miles away.

## Uniform Prize Ribbons

Uniformity In Color Is Agreed Upon For Fairs and Exhibitions

The Canadian National Exhibition, Toronto, has informed the Canadian Association of Exhibitions that it is willing to co-operate with the association's suggestions for uniformity of color in prize ribbon awards throughout Canada.

Hereafter at all fairs and exhibitions under the jurisdiction of the association first prize will be denoted by red, second by blue, third by white, fourth by yellow, fifth by green, and sixth by pink. Sweepstakes winners will be awarded the red, white and blue combination and the grand champions red and blue. Much confusion has resulted in past years at fairs and exhibitions by the failure to adopt a standard system of colors with regard to awards.

### Settlers For Alberta

Quite a few new settlers from the United States have arrived in the Tilley, Alta., district during the past two weeks and several families have also come into the Brooks area to take up farms in the Rainier district. The details in all cases are being arranged through the Canadian Pacific's Department of Natural Resources.

### Excuse Still Good

Office boy—"Id like a holiday this afternoon, sir. My grandmother is dead, sir."

Boss—"But didn't I give you an afternoon off a month ago because your grandmother was dead?"

Office Boy—"Yes, sir—she is still dead, sir."

**MOST** people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Aspirin is a Trademark Registered in Canada

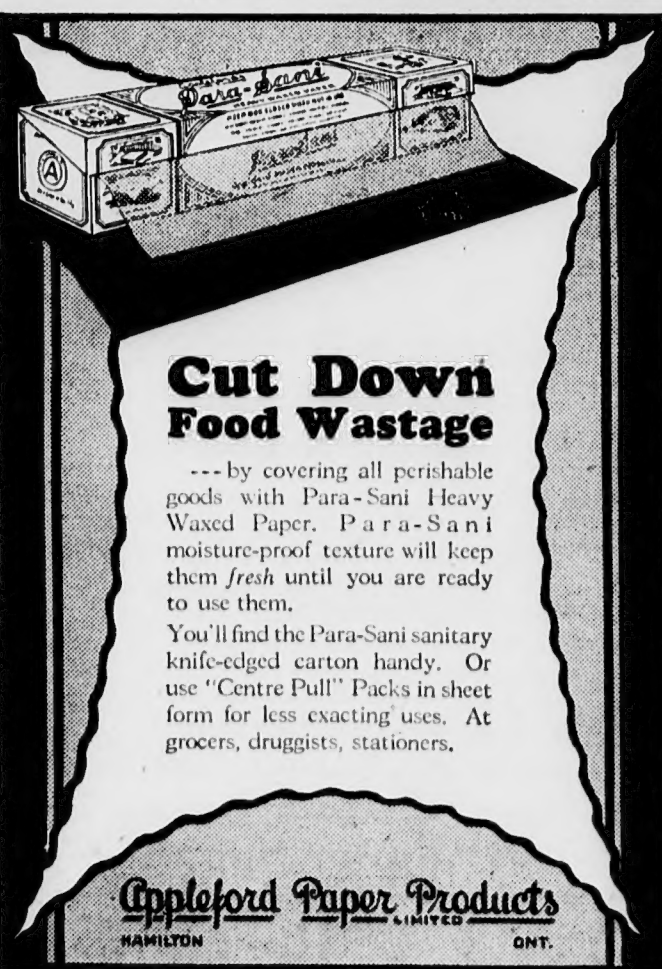

## Marble From the North

Northern Manitoba Stone To Be Used On Office Building In Montreal

Native marble, quarried in Northern Manitoba, along the Hudson Bay Railway, may soon replace marble from Italy. "Maniville," as the Canadian product is called, is being used extensively in the construction of the new head office building of the Sun Life Assurance Company, Montreal. Shipments were recently sent from The Pas by the Canadian National Railways. The northern marble is of fine texture, hard but not unduly so, and can take a beautiful polish and a sharp arris.

## Tennis and Golf

Players everywhere use Minard's to ease sore and tired feet.

## Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

## Right Class Of Immigrants Cannot Fail To Make Good In This Land of Opportunity

The shiploads of immigrants who are now arriving at our Atlantic ports and making their way to various parts of the country will, we have no doubt, with few exceptions turn out to be self-reliant people prepared to make the struggle that average human beings have to make in order to get along. It is to be presumed that they have all heard about Canada as a land of opportunity, and they cannot misunderstand this to mean opportunity for living in idleness. Such of them as intend to stay, and not merely to linger a while as birds of passage on their way to the United States, must intend to do their part as producers of wealth. From time to time there may be need to help individual families to get on a footing of self-maintenance. Neighborly kindness from people already settled and thriving here is to be taken for granted. It is worth far more than any excessive paternalism on the part of the state.

Some organization in this country and some persons who set themselves up as class spokesmen make a great show of uneasiness about the increasing of the country's population by immigration. Labor leaders fear that we shall have more town dwellers than we can find work for. Agitators in the agricultural regions profess to be alarmed over the increase of tillers of the soil, who would add to the output of farm products and bring the price of these products down. These woeful ones worry more than the willing and enterprising workers who arrive as immigrants. If the newcomers are industrious and add to the country's total output they also add to the country's total consumption. Efficient producers are efficient consumers. If they increase the produce that is to be marketed they also increase the capacity of the home market. Worthy immigrants cannot be long in this country without very greatly increasing their buying power. They will live better than they lived overseas because they can afford to do so. A hundred thousand newcomers of the right stamp will in a few years be worth far more to Canada as consumers of her products, than they were as importers of Canadian products in the countries whence they came.

Canada has no fault to find with her own people. She cannot have too many of the same kind. We hope the native-born Canadians will go on increasing in number. Men and women of the stock that settled this country are needed to recruit its population and become the fathers and mothers of native-born Canadians. Then let us welcome with open arms all of the right kind who come from the British Isles and from the preferred countries of the continent of Europe. The coming of such people will assist in giving a further impulse to the progress of this country. Toronto Mail and Empire.

### Source Of Gold

The chief source of the gold produced in Canada is the gold-bearing quartz deposits of the Porcupine and Kirkland Lake districts in Ontario, which are responsible for more than 85 per cent of the output.

"The wretch pretends not to know me, and yet he has to thank me for his divorce." Brummer, Berlin.

W. N. U. 1788

### Very Young At Forty

#### Italy Thinks Man Just Starting At That Age

France Gatta, young Italian electrical engineer, who was at the Hotel Pennsylvania, New York, from Milan, says the young man in America has more opportunity than the young man of Italy.

"We never have any thirty-year old men teaching in our universities," he said. "A man is thought to be very young at forty, and is just getting his start. It takes us longer to finish our education and we are not given important positions until we have worked for many years with a firm."

479

### PRACTICALITY AND CHIC

A printed silk crepe whose wearability makes it an economical choice for Spring wardrobe. Its lines are slender and straight; so becoming with lightweight woolen or silk crepe top coat. The neckline is smart and comfortable for all-around wear, with rever collar and scarf tie of plain harmonizing silk crepe. The box-plaits across front of skirt are youthful fashion. Style No. 479 can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, and is made with 3 yards of 40-inch material with 3/4 yard of 36-inch contrasting in the 36-inch size. It is an excellent model for tennis made with short sleeves, or sleeveless of printed pique, striped washable rayon silk, flat silk crepe or linen. Printed cotton foulard, georgette crepe, and featherweight woolen fabrics are also suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

### Buying More Wheat Flour

#### Increase In Sales From Canada To Northern Europe

Canada is increasing sales of wheat flour in Northern Europe, despite tariff barriers in many cases. This statement is contained in a report to the department of trade and commerce by M. B. Palmer, acting trade commissioner to Hamburg.

Sales to Germany, Austria and the Baltic States, Scandinavia and other countries in the area amounted to 2,624,012 barrels of flour valued at \$15,683,597 in 1928 as compared with 2,132,980 barrels valued at \$13,972,653 in 1927. Germany imported 14,918,625 bushels of wheat from Canada in 1928; 2,108,399 bushels of rye; 4,788,925 bushels of barley, and 946,236 bushels of oats. These total nearly \$27,000,000 or 57 1/2 per cent. of the total value of Canadian exports to that country.

Czecho-Slovakia, Denmark and Scandinavia are also heavy buyers of Canadian grains. Germany buys large quantities of packing house products from Canada, notably sausage casings to the amount of 1,376,760 pounds valued at \$298,601 in 1928. Other commodities of great importance in Canada's exports to Germany include dairy products, honey, canned goods, fresh and dried fruits, fish and fish meal, seeds, crude drugs, whiskey and foxes.

### Canadian Geese In B.C. Bird Sanctuary

#### Number Has Increased Rapidly In Last Six Years

Very rapid increase has taken place in the number of Canada geese in the Vaseux Lake Bird Sanctuary, British Columbia, since this area was set aside for this purpose in 1923. In one part of the reserve, an island in the lake where only three geese nested in 1919, thirty-five nests were counted in 1928. Throughout the whole sanctuary the number of nests counted in the latter year was fifty-five, whereas in 1923 the number of incubating birds was very small indeed. During last summer over four hundred geese were counted at one time.

Miss Pasmarte: I hear you have a model husband. Is he a late model?  
Mrs. Junebride: The very latest. From 12 to 2 a.m. every night.

## The Interesting Story Of A Remarkable Achievement In Canadian Railway Construction

### Snow Survey In Foothills

#### Valuable Information Is Secured In Regard To Water Supply For Southern Alberta

For the last six years, the Dominion Water Power and Reclamation Service, Department of the Interior, in co-operation with the United States Geological Survey, has annually conducted a survey of the snow conditions on the headwaters of the St. Mary River in Montana. The discharge from St. Mary River is of vital interest to the large irrigation projects in Montana and southern Alberta and to operate the irrigation facilities of these projects at the highest degree of efficiency, some advance information as to the available water supply is essential. While this survey may still be regarded as in the experimental stage due to the limited number of years of existence, some remarkable results have already been obtained. It is now established that a direct relationship exists between the depth of snow found early in May and the total runoff from the area during the following three months.

### British Capital Wanted

Canada welcomes American capital, or any other capital, observes the Ottawa Journal, and will always treat it fairly; but next to control of Canadian enterprises by Canadians the best thing that can happen is to keep control of what we have within the British family. That is one kind of Empire preference about which there should be unanimity.

### Why Latitude Varies

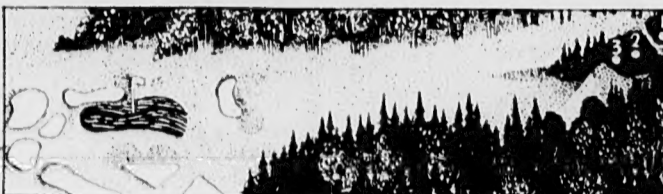

According to a new theory of Dr. Harlan T. Stetson of Harvard, the moon not only causes tides in water but on the crust itself of the earth. This is tendered as an explanation of the variations in latitude when it is measured from the Equator.

Roman Matron: "Cornelia, run over to Horatius and tell him I'd love to have him make a fourth at bridge."

## A TEASER

No. 9, Cleopatra—215 yards, Par 3.

215 100 Yds

The ninth hole of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the amateur championship of the Royal Canadian Golf Association will be played August 19-24 this summer, is one of the trickiest in Canada. The championship tee (No. 1) is considerably elevated and the green, which is very fast, is also built up high. The trick, therefore, is to play a tee shot which will hold the green. Yawning traps surround the green to eat up the strokes of the golfer who fails to play this hole properly. Like its famous namesake, "Cleopatra" is likely to wreck a lot of reputations at Jasper in August.

Co-incident with the Canadian Amateur, the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph was made from No. 1 tee. Below it is a plan to scale showing the hole in detail with the three tees plainly indicated. The figures below represent the yardages.

Hudson Bay is now on the railway map of the Dominion. This is the arresting opening of an article in the May issue of "Natural Resources, Canada," the monthly review of current events published by the Dominion Department of the Interior. The arrival of steel at Churchill, the Bay terminal, on March 20, last, had of course been duly chronicled, but it required more than brief news mention to enable Canadians generally to realize just what the announcement signified and what rendered the event important and memorable. For "Natural Resources" declares that by linking that historic body of water with the outer world of steel, yet another epic has been added to the glorious saga of Canadian achievement. The speedy laying of the track, according to this authority, constitutes in truth the accomplishment of what many people had deemed to be impossible. Certainly, it proceeds, no other main line is exactly like the Hudson Bay Railway, stretching northwestward across Manitoba from The Pas to Churchill, and no other railway has been built under similar weather conditions.

Not only was the undertaking on the one hand a never-ceasing fight against the elements and the physical obstructions of a treacherous terrain, but, on the other, a grim race against time, calling for bold and urgent expedients on the part of the engineers. Had the last rail not been in place before the frost broke, the consequent delay would have proved very serious. Steel, however, reached the terminus on March 29, permitting more than 300 carloads of material to be taken in and made available for the development of the port. This prevented loss of valuable time, unavoidable otherwise because of the interruption due to the spring break-up. Apart, too, from the personal hardships entailed on the workers, the undertaking had more than its normal share of seemingly insuperable difficulties. Much of the land was muskeg, and right here the talent of the Canadian engineer came in, for he utilized the aid of the frost in carrying his work forward without delay over time-consuming obstructions. When cold weather came, grading work was abandoned until the spring and the tracks were laid on ties on the frozen ground, as in the building of the Flin-Flon railway.

With the advent of spring, the grading gangs took up their interrupted work of ballasting the temporary track, one gang working up from the south, while at the same time another party began working its way southward from Churchill. Somewhere along the track the parties will meet, most likely early next August, when the golden spike will be driven by Right Honorable George P. Graham, who as Minister of Railways and Canals, turned at The Pas, Manitoba, the first nod in the construction of the railway. Thus the finishing touch will be put on an undertaking in railway engineering that has won the admiration of the world. Owing, however, to the large amount of work to be done on the port facilities, engineers expect that the first shipments of grain will not be made until the season of 1930. The work at Churchill will proceed on carefully planned lines so that there will be no demand for labor which has not been foreseen and provided for.

Lady (used to bargaining): "How much is the fare to Sleshton?"

Clerk: "Seven and sixpence return."

Lady: "Make it seven shillings and I will go." — Sondagssisse-Strik, Stockholm.

**THE AGRICULTURAL FAIR**

Every agricultural district of any pretensions in the Western Provinces, boasts an annual fair. Some of these events are a distinct credit to the community; others enjoy only a measure of success; a few barely manage to struggle along from one disappointing year to another.

If we were to be asked to indicate in one sentence the deciding factor in the conduct of the average country fair, in the conduct of Didsbury's annual fair which is only a few weeks distant, we would be quite safe in choosing the "attitude of the people" in the town and surrounding district, for this, after all, makes or mars every effort relying on public support. The locality containing a large number of men and women who are apathetic toward the annual fair and co-operate in it half-heartedly or not at all, can never hope to find the word "excellent" written on the judges' reports.

The first essential for success is then a desire on the part of the residents to put the fair over. Granted this, the rest is easy. A satisfactory number of entries in all the major classes can be anticipated and prepared for; the preliminary work can be divided up in a way that puts no excess on the shoulders of an individual or small group, and the entire program can be carried through with a minimum of friction and a maximum of satisfaction.

The failure of a number of fairs to attain the high standard set by others can be explained by this lack of spirit of endeavor among the people of the area the fair serves. That explains the paramount reason for such failure. Others have different views of the situation. Some believe that a mid-way and such side attractions are required to draw the crowds. It must be noted that the fairs meeting with the most success, according to a Calgary writer on the same subject, are definitely "agricultural fairs." They countenance no mid-way; sports are not on the program, except they be for children; and there is nothing to detract from the showing of the products of the farm, livestock and women's handiwork. If these attractions are desired by members of the community, another day is set apart for them, but too many attractions should not be allowed to interfere with what is intended as an agricultural display.

Stock judging competitions create an interest which can be obtained in no other way. If coaches can be found for the various schools and also for the older folk as well, keen competition can be created in such events. Under no circumstances should counter attractions be permitted on the grounds while animals are in the ring.

The management of the fair, of Didsbury's fair, should not devolve upon the shoulders of any one or two individuals, however capable and energetic they may be. In certain cases the district can be divided up among the executive a few days before the fair date, and a personal canvass made to ensure that entries are being made.

Experience seems to show that a successful fair is the outcome of careful organization and a study of local need. The fair is an institution; in years past it has done much for the

**LOCAL & GENERAL**

Last week there was a big slump in the local butchers' fish business. We wonder why.

Tomorrow (Friday) is the last day of spring and the longest day in the year.

Mr. Bennie Robinson of the local Royal Bank staff left last week for Bruderheim, Alta., to relieve the manager.

Don't forget the Old Timers' Reunion picnic at the Fair grounds, next Wednesday, June 26. Luncheon at noon.

Mr. D. Dippel, lay delegate of the Ev. Church to the annual conference at Melville, Sask., returned home Tuesday.

The Burnside U. F. A. will hold their annual picnic at the Lone Pine hall, on Saturday, June 29th. Everybody welcome.

Mrs. Ivan M. Weber will receive for the first time since her marriage on Wednesday, June 26th from three to six o'clock. Mrs. Weber will be assisted in receiving by her mother, Mrs. G. E. Goodhand.

The most complete and thrilling revelation of the inside of the mysterious espionage system that honeycombs the continent! See "Spies" at the Opera House, Didsbury, Saturday, June 22.

The premises of the Atlas Lumber Co., on South Railway avenue present a fine appearance with the new brick fronts. With such an establishment in a town the size of Didsbury, the town is fortunate in possessing such a progressive firm.

Doomed, unless they reach "The Waterhole," a special technicolor picture at the movies, Wednesday, June 26. See Jack Holt and Nancy Carroll, with her red hair and Irish blue eyes, photographed in natural colors. Story by Zane Grey.

Rev. Snyder, of Didsbury, accompanied by his father and mother, who were driving through from Edmonton, spent Tuesday in Galahad. A social afternoon was held at the M. B. & Manse, when a pleasant time with old time friends was spent. The party left in the evening for a day's visit at Castor before proceeding on to Didsbury. — Alliance Times.

farmer, and the sphere of its usefulness is by no means removed.

There are many contentions on this important subject and the Pioneer invites correspondence for its columns on the subject for the benefit of our readers.

**LIFE IN THE COUNTRY**

Considerable discussion is heard these days as to the means that may be adopted to keep folk on the farm. The situation has become serious, for many experienced farmers are moving into the cities, either for the purpose of earning what they consider easier money, or to use their savings in giving their children and themselves the advantages of city life. Whatever the cause, the situation remains, and it constitutes a problem that may well engage the attention of national and state authorities. The fear is expressed that the production of food may become reduced to such an extent that the scarcity will not only greatly increase prices, but threaten the welfare of the people.

While the reasoning is purely academic and subject to the views of each individual, it is probably true that the persons who make occasional trips from the rural districts to the larger towns enjoy those visits and the things they see much more than those who see them every day. It is a case where familiarity sometimes breeds contempt. In the matter of better school facilities in the towns, there is in most cases no place for argument, although some progress has been made in a number of states to bring about a centralization of teaching that gives country pupils some of the advantages of the city in a course of study.

There is nothing to justify undue pressure to keep men and women and boys and girls on the farms. Rural life should be so attractive in itself that enough persons will choose the country life to insure crops of grain and quantities of other foodstuffs needed to maintain all the people at a reasonable cost.

home, has been sent to the printer by the Frigidaire Corporation. The first edition which ran 500,000 copies, was exhausted within 60 days after publication.

The book, which is being distributed through dealers everywhere, features practical household applications of quick-freezing, according to its author, Miss Verna L. Miller, head of the corporation's experimental kitchens. Many of the recipes were devised in connection with engineering development of the Frigidaire Cold Control, acclaimed as the greatest single contribution to household refrigeration since the first ice box.

"The same kind of frozen desserts and salads usually enjoyed in hotels and restaurants equipped with powerful refrigeration machinery, may now be made by the average housekeeper in her own kitchen with the help of these recipes and the aid of the Cold Control," says Miss Miller.

"We conducted lengthy and exacting tests covering each recipe before it was finally approved. Hundreds of visitors to the experimental kitchens tasted variations of each recipe and voted their preference. In some cases we tried more than 80 combinations of ingredients before the recipe was finally perfected.

"In addition, each separate reci-

pe was checked for appearance. A desert must not only be pleasing in taste but also attractive in appearance to win popular approval. The recipes were devised with an eye to economy and ease of preparation. Freezing tests were made under various conditions to insure uniform results.

"Besides giving the advantage of six freezing speeds in obtaining the varied temperatures necessary for freezing these new desserts, the Cold Control cuts the freezing time of ice cubes almost in half.

**Burnside Notes**

Don't forget the date of the annual picnic of the Burnside U.F.A. at Lone Pine hall, on June 29th. Ladies please bring baskets for the dinner at noon. Hot dog supper dance from 8 to 12. Two good ball games and other sports. Good prizes and a good time assured to everybody. Remember the date, Saturday, June 29th.

Captain Page has moved with his wife and family onto the farm he recently purchased, and is building on it an entirely new set of buildings.

The W.L. will hold a Baby Clinic on Thursday, June 27th, from 10 to 12 and 2 to 6. All children of six and under examined free.

Messrs Noah Eckel, Joe Rist A. Thompson and Captain Page took in the ball game at Crossfield on Friday last.

The Lone Pine W. L. met at the home of Mrs. A. E. Thompson on Friday. The roll call was answered by "The job I hate and why," and the answers brought forth were very varied and caused lots of fun. Mrs. Eckel and Mrs. McCulloch, the delegates to the annual convention gave their report, and Mrs. Thompson gave a splendid paper on Child Welfare and Public Health. The next meeting will be held at the home of Mrs. Bert Pross, on July 11th.

Miss Annie McCulloch who was the delegate from the Junior U. F. A. to the Farm Young People's week at the University of Alberta was the lucky winner of the silver cup, given for the best athlete among the 320 present. We congratulate her on her prowess for it is the first time this cup has been won by a girl.

**Church Announcements**

**EVANGELICAL NOTES**

Rev. W. Zimmerman, Toronto, will speak at the morning service at 10:30 and at Westcott in the afternoon at 2. Union service at 7:30.

**UNITED CHURCH**

Rev. A. E. Hayes and family left on Monday by auto on an extended trip. The minister has occupied the pulpit of Knox Church, Didsbury, one hundred Sundays since his holiday of two years ago and the congregation wish him and his family a real good holiday.

During his absence the United Church at Olds will be responsible for the pulpit at Didsbury and Westcott. Services will be held at Didsbury each Sunday evening and at Westcott as announced from Sunday to Sunday.

**M.B.C. CHURCH**

Rev. C. J. Hallman, Pastor.

### WORLD HAPPENINGS BRIEFLY TOLD

Plutarco Calles, former president and minister of war for Mexico during the recent revolt, has retired from politics.

Veterinarians of Manitoba will hold their semi-annual meeting in Brandon, July 5, during the week of the summer exhibition.

It is estimated that 22,000,000 acres will be sown to wheat in Canada this year, or 1,000,000 acres more than a year ago.

The Dominion treasury has \$78,231,160 in gold in the central gold reserves, while according to last bank statement the banks of Canada hold in their own vaults in Canada an additional \$10,000,000 in gold.

A flight by Russian aviators from Moscow to New York by way of Alaska this August is being planned by the Soviet airway commission. The plane, called the "Land of the Soviets," will be manned by four men.

### MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Lavoie, Three Rivers, Que., writes: "Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Visitor: Well, Tommy, and how do you like school?

Tommy: Not much. You see, I'm not very fond of children.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

She (in car): "Don't tell me the car is out of gas!"

"He: "All right, then, the gas is out of the car."

## Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

### Prominent Agriculturists To Meet

Canadian Wide Gatherings Of Seed Growers and Scientists At Winnipeg

(By E. Cora Hind)

June 8 to 15, are to be important days for agriculture and livestock in Canada for during those eight days the year's work and findings of the Plants Breeders Of Canada, the Canadian Seed Growers, the Canadian Technical Agriculturists, and the Western Canada Society Animal Production, will all be discussed and action taken on such important subjects as the standardization of names of seeds of vegetables and flowers for registration and appraisal and determine the extent to which the Seed Growers Association might go in encouraging the production of field root, vegetable, garden and forage crops suitable for registration. Special interest will centre on the question of the registration of Alfalfa and other cross fertilizing crops.

From the cereal breeding committee will come a report which will be the basis of a discussion on the desirability of retaining generation numbers and special attention will be given to whether or not "number three registered" should be eliminated. It is expected that a decision will be arrived at as to the "proper type of Marquis wheat required for registration."

The Canadian Seed Growers will have only two addresses for their own members. President H. G. B. Strange, will deal with the work generally, and Prof. T. J. Harrison, will speak on his recent trip to Europe, and the types of barley required for the British market.

The Animal Production men are bringing two world famous men whose addresses will be shared by all the organizations. These are Dr. F. A. E. Crew, Ph.D., D. Sc., professor of animal genetics, University of Edinburgh, and Dr. W. L. Williams, Professor Emeritus of Veterinary Surgery, Cornell University. The animal production section will also have as a special speaker, Dr. Alfred Savage, B.S.A., B.V.M., Animal Pathologist at the Manitoba Agricultural College, who has been working in collaboration with Dr. Williams. The Canadian Technical Agriculturists are bringing Dr. H. B. Humphrey, Pathologist in Cereal Rust Research Investigation of the United States Department of Agriculture; Dr. W. E. Grimes, head of the Department of Agricultural Economics, Kansas Agricultural College, and Dr. M. J. Dorsey, Chief of Pomology Agricultural Station, Urbana, Ill. It is doubtful if these gatherings have ever been graced by a more renowned group of specialists.

The Provincial Government of Manitoba and some of the important business bodies of Winnipeg are showing their appreciation of the importance of the gatherings by offering luncheons and dinners.

Monday night, June 10, the Provincial Department of Agriculture will give a dinner in the H. E. Co. store, when the Minister will preside and Premier Bracken will be the speaker; Tuesday, noon, the Seed Growers will be the guests of the Canadian Wheat Pool; Tuesday night, the guests of the Winnipeg Grain Exchange at the Royal Alexandra Hotel; Wednesday night, the Seed Growers and the Technical Agriculturists will be the dinner guests of the T. Eaton Company, and will be further entertained by a motor drive after dinner.

Thursday, June 13, there will be an excursion by motor to the Dominion Experimental Farm, at Morden, supper there and a return to the city by moonlight. It is hoped that a number of wives will come with their husbands to these meetings, and special entertainment is being provided for them.

The Province of Manitoba and the City of Winnipeg feel deeply honored at the opportunity afforded of entertaining such important bodies, and hopes to give them a profitable and very happy time during their stay.

### Canada's First Passenger Train

Left Toronto Station On May Sixteenth, 1853

Seventy-six years ago on May 16th, at 8 o'clock in the morning, the first passenger railway train to run in Canada, pulled out of the old station nearly opposite the Queen's hotel on Front street, Toronto, and made its initial trip to Aurora, Ontario. Up to that time the only form of transportation was the old horse-drawn stage coach and the carrier's wagon. The train consisted of a 24-ton engine with 5-foot driving wheels and a 14x20 cylinder, a box car and a passenger car. Alderman John Harvie was the conductor, and passengers had to purchase their tickets from him on the train. The fare was \$1 each way. The journey occupied two hours. The engine drawing the train was named "Lady Elgin" after the wife of the governor-general.

**Always Ready and Reliable.**—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

### Foundation Of the Farming Industry

Cow Serves Mankind In More Ways Than Any Other Animal

The cow really forms the foundation of the farming industry. Not only does she supply the world with all the milk products, such as butter, cheese, milk, and cream, but almost all her flesh can be eaten, and beef is the staple meat of most countries. Her hide is used for making leather, and her hair for mixing with plaster. Glue is made from her hoofs, and gelatine powder from her joints. When everything else is removed her bones are ground into fertilizer in so many ways.

**The Oil For the Athlete.**—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

### Will Trek To Alberta

Another of the Hutterische Bruder Gemeinde colonies, organized near Freeman, South Dakota, by Russian immigrants about 50 years ago, will leave South Dakota when the Wolf Creek group, numbering about 150, treks to Alberta. An option on their property, comprising 5,400 acres of improved land, has been obtained by A. W. Harper, Minneapolis banker, who plans to dispose of it in tracts of 160 acres each.

### How To Measure Height

To measure a tree, set a stick straight up in the ground. Use a plumb line to get it absolutely perpendicular. Measure the shadow it casts, and the shadow cast by the tree. As the shadow of the stick is to the length of the stick, so is the shadow of the tree to its height. Figure it out.

The Pessimist (proposing): "Darling, I love you. Will you be my widow?"

Use Minard's for the rub down.

### Find Germless Island

Scientist Says Land In Arctic Circle Has No Microbes

Science has its fairy tales, among the most remarkable coming to us from the geological laboratory at Leningrad, with Dr. A. F. Kazansky responsible for it. That source may discredit it in some minds, but is accorded recognition on this continent. According to this story, the northern island of Novaya Zemlya, in the Arctic circle, is absolutely germless. Tests made by Dr. Kazansky of air, earth, water and dust failed to find trace of a single microbe. Even the wild game which the guns of his party brought down was wholly free from germs.

Cunning methods were devised in order to lure some vagrant microbe and colonize it. But, despite every effort known to scientists for the encouragement of germs, not a colony could be raised. Thus a dish of agar-agar jelly was exposed outdoors for hours, then placed in an incubator and warmed. If this had been done in a big city, a fifteen-minute exposure would have been sufficient to produce a germ population, beyond count. The agar-agar dish remained on Novaya Zemlya, as sterile as at the moment of its preparation.

Fresh and juicy meat was exposed in this way for eight months, and at the end of that time displayed no sign of decomposition. Seemingly it was as fresh as when placed in its open container. Doctors would find little to do in this island—unless it might be caring for frozen ears and fingers. It is suggested that sanatoria established there might offer to pulmonary patients an unusual chance to win their way to health. The extraordinary purity of the Polar air had been previously observed by many explorers and scientists. But until now no one supposed that 100 per cent. purity could be found anywhere on the earth's surface.

### On the Warpath

Daughter: "As you were so late, Dad. I told mother I'd wait up for you."

Father: "I was detained at the club, er—what's your mother like?"

Daughter: "Like an accident looking for somewhere to happen."

### Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

### Sunspots and Rabbits

The number of pelts received by the Hudson's Bay Company from year to year since about 1840 showed marked periodic variation. According to an investigation made at the Dominion Observatory, Ottawa, the number of rabbit pelts was, on the average, three times greater one year before the minimum of sunspots than at the maximum.

Little girl to uncle, whose voluble wife has just stopped talking to take breath: "Now, Uncle Henry, you say something."

### Keep Minard's in the Medicine chest.

"Daddie, can you tell me if Noah had a wife?"

"Certainly—Joan of Arc. Don't ask silly questions."

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

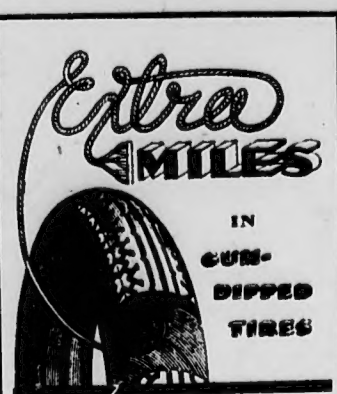

He: "Wouldn't you tire of seeing me at breakfast every day?"

She: "Oh, yes, but I don't get up for breakfast."

### Minard's Liniment for sick animals.

Big Man: "My time is worth \$50 an hour, but I'll give you just a minute."

Reporter: "In cash, sir?"

**GUM-DIPPING** which saturates every fibre and every strand of every cord with pure rubber, serves the same purpose as that of a cobbler waxing his thread . . . prevents friction and multiplies strength.

This extra strength multiplies mileage, and increased mileage with no increase in price means lower cost per mile. That's why Firestone Tires give

### Conditions Better In Great Britain

Great Improvement Shown In Basic Industries

"Conditions in Great Britain are materially better than they have been since the strike and there has been a great improvement in the basic industries," said P. A. Clews, European Traffic Manager of the Canadian National Railways, who has come to Canada from London on a short business trip. "There has been a marked revival in the coal trade," he said, "and the severe weather which reigned all over Europe last winter helped the British producers to regain some of their lost markets."

Last year, Mr. Clews said, the Canadian National Railways dealt with the largest freight traffic in Europe in their history. "The tourist movement to Canada is increasing astonishingly" he added. "The people in Europe are becoming more and more interested in the possibilities of spending a holiday in the Rocky Mountains, particularly in such places as Jasper National Park, which appeals greatly to their imagination."

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

### Forest Products Rank High

Forest products in Canada rank second to those of agriculture with an annual value of approximately \$500,000,000.

### Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50¢ a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## The Desert Song

— BY —  
VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. picture. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

### CHAPTER II.—Continued

Old Hassi nodded. He remembered the night well, remembered the masked figure who had stepped into their camp and shouted defiantly, "Give me twenty of your young men who are not afraid to die! And if the law is wrong, we'll overturn the law!"

"I was only a boy indeed," continued the Red Shadow, "but I dreamed of saving the people of Morocco from injustice. When I returned to Fez, they forced me to resign from the army. I acted as if that blow had made me stupid, almost half-witted. I spent all my time picking wild flowers and so they searched high and low for the Red Shadow, never suspecting that he was the stupid, timid boy living right in their midst."

Then complications had arisen. General Fontaine died and the Red Shadow's own father, General Birabeau, was sent out from France to command the post at Fez. He had come with one purpose uppermost in his mind—to wipe out the Red Shadow. How was his son, Pierre, to meet this situation? Could he betray the people he had learned to love? He could not. And yet it was no less difficult to keep his parent from suspecting that his boy was an enemy of the French.

"So I continued to play the fool," he went on, "and I succeeded in deceiving my father. Now because he thinks I am a weakling he hates me. That is bad enough, but to see Margot despise me too! Why, I came to Morocco to show Margot I was a man!"

Back among the tents there came a scurry of excitement. A volley of guttural oaths filled the night as a dozen of the Red Shadow's men dragged in a prisoner caught by the sentry. He was thrown unceremoniously in front of the fire—five feet of insignificance dressed in bulging riding breeches fashioned out of enormous checks. It was hard to say which was the most ludicrous, his outlandish clothes, his mustache on his tiny face, pale with consternation.

Hassi drew his sword. "Let's kill him! He's a spy! I'm after blood." The stranger's squeaky voice protested, "Well, don't look at me. I'm anaemic!"

The menacing face of Hassi terrorized him.

"You can't kill me, I'm an American! I'm no spy, I'm only the society correspondent for the Paris Herald. I didn't even mean to come here. Early this morning I went out horseback riding with my

## WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my thirteen year old daughter." "I took it before and after my baby was born." "I am gaining every day."

Lydia E. Pinkham's  
Vegetable Compound

W. N. U. 1788

friend, Pierre Birabeau. Later he gave me the slip and I thought he had headed this way."

At this point the Red Shadow came forward. He spoke in the Riff's native tongue. "What he said meant that the prisoner should be released."

### CHAPTER III.

Like most girls who have read story books and believed in them Margot Bonvalet was beginning to find life a bit disillusioning when she came to actually living it. She had arrived in Fez expecting to find there all the high romance of the sentimental novel. Her Paul would be a dashing hero in his uniform of the Foreign Legion. He would sweep her into his arms and carry her away on horseback, far out into the desert, and there would be a wild courtship under the Morocco moon. But instead, she had made the disappointing discovery that Paul was first of all the soldier and only the lover when there was nothing else to interest him. His devotion to military duty made him more of a machine than a dauntless knight.

He left her alone a good share of the time and she found it necessary to rely on inconsequential flirtations with the officers or tedious conversations with General Birabeau's son, Pierre, who worshipped her at a respectful distance but who scarcely qualified as a suitor since Margot regarded him as a mollycoddle. There were no other women at the garrison except Susan, the secretary and sweetheart of Bennie Kid, the Paris Herald reporter, and Azuri, a dark-skinned native girl who was not officially one of the household but who lurked about at all hours when she might glimpse Captain Fontaine.

Margot and Susan were chatting together when Bennie returned from his desert adventure. Susan fell gratefully into his arms, then babied him with solicitous pats and anxious questions. He waved her aside. A man could not bother himself with love when he had just risked his life among the dreaded Riffs themselves.

"Bennie did you see the Red Shadow?" Susan queried.

"Yes—and what a tough guy," Bennie replied. "Why he came riding into camp on a tiger, using a rattlesnake for a whip. And because he was hungry he ordered a live cow. When it was brought in he took out his sword and cut off a slice for himself."

Susan's eyes were popping. "Raw, Bennie?"

"It was the rawest thing I ever saw done to a cow!" he assured her.

Just then Pierre Birabeau appeared in the doorway. Margot hadn't missed him for Pierre always took a nap in the afternoon. To Margot he was a nice boy though somewhat of a bore. Would she not have been astonished could she have watched him a minute before when he had hastily stuffed a scarlet burr-nose into the heavily carved chest in his bedroom? Yet he had not been cautious enough, for Azuri, crouched behind a chair like some lithe animal, had seen him.

Pierre ventured timidly toward Margot and handed her a small bouquet. "See Margot, I've got some lovely wild flowers for you!"

The girl looked at him despairingly. "Wild flowers! Oh Pierre, why don't you go out and fight the Red Shadow? If only you would do one thing to make me proud of you!"

Suddenly she caught sight of Captain Fontaine coming across the court yard. When he entered she greeted him ardently.

"What luck, Paul?"

"Great luck, Margot! I nearly

caught the Red Shadow. I found his secret hiding place and I've covered it with a concealed machine gun. Next time he goes there we'll mow him down."

"Bravo!" shouted General Birabeau who had arrived in time to hear Fontaine's confident boast.

"Oh, that's great!" put in Pierre. "But father, wouldn't it be funny if he didn't go there again?"

The General did not bother to answer his son and Pierre who was well accustomed to snubs, resumed silence. His father's interest was primarily in Paul. He had been watching the progress of his romance with Margot and had noted the soldier's neglect and the girl's dissatisfaction. For the sake of his friendship for Margot's father, General Birabeau sincerely desired her happiness. He saw a way of promoting it.

"A boat of the French Line stops here tonight, Paul," he told him. "It's just finishing a Mediterranean cruise. You and Margot might take the Bidal Suite and as Governor of the Post, I can marry you."

Margot interrupted. "As the bride, don't you think I deserve to be consulted?"

Paul laughed. "You could hardly be married in that riding habit, Margot!"

Margot tossed her head. "I don't suppose you thought that we two might go riding in the desert together!"

"You see, Paul," General Birabeau told him good humoredly, "Margot hoped you'd pick her up on your horse and carry her across the hot desert sands."

Perhaps Paul's sense of the romantic was partially awakened. At any rate the plan for a hasty marriage appealed to him and he begged General Birabeau to make out his passport. Then he turned to the girl.

"Margot, I'll be back for my answer in five minutes. If it's no, I'll make you say yes!"

"There, Margot, there's romance for you!" remarked the General.

As Paul crossed the inner court, Azuri sneaked up beside him. He turned on her with a furious contempt.

"Azuri, you can't follow me like this."

She rubbed her sensuous body against him. "Lover, come with me tonight to the hills—and tomorrow morning in your arms, I will whisper to you the name of the Red Shadow!"

"I don't believe you. You don't know."

Azuri twined her arms about his neck and placed her warm dark cheek next to his. "Paul, I cannot give you up to this French woman!"

Fontaine wrenched himself free and taking the girl by the shoulders he threw her roughly to the ground. Her dark eyes flashed jealously as she rose slowly, showing her gleaming white teeth, and sneering.

"Azuri—that name means tiger claw. When she loves she loves for always and when she hates—she hates!"

And Azuri crept out toward the desert, leaving this half-muttered threat ringing in Fontaine's ear.

(To Be Continued.)

### Radio Difficult To Transmit In Forest

Mysterious Barriers Exist Largely When Trees Are Sappy

When radio messages are received with comparative ease in the Arctic, and the long and short waves of electrically energized ether are received in mines deep underground, it is startling to find that difficulty is encountered in establishing radio communication in the forest. There are mysterious barriers that exist in the forest, the transmission of radio energy being affected to an unknown extent by what is called the absorption of trees. This seems to occur in spring, summer, and fall when the trees are sappy. With all the advances made by radio, it is still necessary for the protectors of our forests to use the telegraph and telephone.

### Might Try It Once

Opening a family Bible, a Minneapolis man found a \$100 note seventy-five years old, and still worth its face value. Thus encouraged, I imagine a lot of people will open their family Bibles at least once every seventy-five years, just on a chance.

### To Explore Baffin Land

Donald MacMillan To Head Expedition To Northern Lands

Donald B. MacMillan, explorer in an address has briefly outlined plans for his projected expedition into the Arctic this summer.

The schooner Bowdoin will leave from Wiscasset Harbor, June 22.

The summer will be devoted to exploration of unknown spots in Labrador and Baffin Land. He expects to return in September.

The party will work among the Nascope Indians, whose hostility to white men was overcome on a previous expedition, when they were assisted through a period of famine. Plans include a study of the great ice cap in Baffin Land, of which little is known, Commander MacMillan said.

### A Strange Cargo

One of the strangest cargoes ever to be shipped on an aeroplane arrived at Croydon airport recently. When the large air freighter pulled up at the hangars, the load inside proved to be twelve monkeys, and a baby bear. They were shipped to a private animal dealer in London, from the East Indies, the distance from Amsterdam to Croydon being covered in the air freighter.

Love is blind. That's why a man in love is unable to distinguish between an angel and a goose.

### MUSHROOMS PAY

Earn upwards of \$25 weekly growing Mushrooms for us in cellar or other waste space. Deliver to our nearest branch. Light pleasant work for either sex. Illustrated booklet sent anywhere, for stamp.

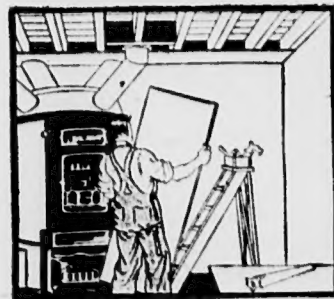

DOMINION MUSHROOM CO. TORONTO

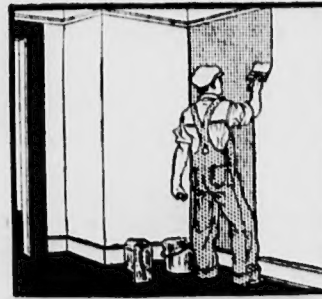

## Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Broad, ceiling-high sections of Gyproc can be nailed directly to joists and studding—easy construction with a minimum of labor.

Beautiful decorative effects can be obtained by applying Alabastine, paint, paper or panels right over Gyproc walls and ceilings.

#### RUGBY NOTES

(Held over from last week)

On Thursday, June 6th, the W. I. members gathered at the home of Mrs. C. Brown for their monthly meeting. There were 16 members and four visitors present. This meeting took the form of a social afternoon at which the grandmothers of our institute were specially entertained. Various contests were put on for them, grandmother's songs were sung, and a hilarious afternoon was spent. When time

came to go home, no one was in a hurry to start. One member was heard to say, she wished she was a gran in other too, just for the afternoon though. Mrs. A. Cowitz won the prize for having the most grand children. At the business session it was decided to hold the community picnic at Fallen Timber Creek, on June 29th, and committees were formed to arrange all details connected with it.

On Friday eve all the Rugby pupils were conveyed by truck to Didsbury to attend the meeting of the Fish and Game Association. The trip was very much enjoyed and both teacher and pupils are to be congratulated on the quite manner in which the children sat and listened to the whole program.

There will be a dance at Rugby on Friday, June 21st. McDonalds orchestra. Good eats, come and have a good time.

#### Train Time at Didsbury

### CALGARY STAMPEDE

The deep-throated roar of encouragement from a crowded grand stand, sweet music to the ears of the scores of cowboys who daily risk life and limb during the championship cowboy contests, will ring out with renewed vigor again this year, when the annual Calgary Exhibition and Stampede where \$70,000 in prizes and purses are offered, is held at Victoria Park during the week of July 8 to 13, inclusive.

With the greatest list of purses and trophies ever offered for a frontier contest, Canadian and American cowboy are soaping their saddles and working up their ropes in preparation for the big western celebration, and even at this early date, the biggest entry of cowboy contestants in the history of The Stampede is expected.

Agricultural Alberta is preparing for the Stampede and Exhibition in totally different ways. In ranching districts, the cowboys are rounding up the best of the worst of the outlaw horses, for only top bronks are shipped in for the big contests, while in the farming districts, purebred cattle, horses, sheep, swine and poultry are being fitted up for display in the various show rings. The exhibition of purebred livestock is a big part of the Exhibition and Stampede, and the cattle pavilion, the largest and most modern in Western Canada, will be filled to capacity this year.

In addition to regular prizes for livestock, special prizes will be awarded for Alberta bred cattle, and not only will all Alberta breeds be eligible to compete for these prizes, but they will also be eligible for all open classes.

Prizes are also being offered for dairy products, agricultural products, purebred dogs, fancy work, art, cooking, school work, Indian work, etc. In the grains and seed department, a number of valuable trophies, supported by generous cash prizes are being offered, and a big entry list in these classes is expected.

## Farm for Sale

The Soldier Settlement Board of Canada offers for Sale by public tender—

The South East Quarter of Section Seventeen (17), in Township Thirty-one (31), Range Twenty-six (26), West of the Fourth Meridian, as described, and subject to the exceptions and reservations contained in the existing Certificate of Title.

Terms of sale are not less than \$400 in cash on acceptance of the tender, and the balance in eight equal annual instalments, with interest at 6 per cent. per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100. If tender is accepted, this sum will be credited to the purchase price of the land. If tender is not accepted the money will be returned to the tenderer.

Tenders will be opened at CALGARY, Alberta, on WEDNESDAY, June 26th, 1929.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned, the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes marked "Tender for the purchase of the S.E. 1-4 17-31-26-W.4th Meridian."

Address tenders and enquiries to—

### To Study Conservation Of Natural Gas

Dr. R. C. Wallace, president of the University of Alberta and A. A. Carpenter, chairman of the Board of Utility Commissioners, are the Alberta members of a committee who will co-operate with Dr. Chas. Cam-sell, Deputy Minister of Mines, Dr. A. W. G. Wilson and C. C. Ross, appointed by the Dominion Government to investigate the possible conservation of natural gas at present going to waste from oil and gas wells in this province. The committee will look into such matters as the conservation

of gas by storage underground and the utilization of gas as a fuel or as a source of other materials such as oil, carbon black and various chemical products.

### Pimples, Blotches Quickly Vanish

**Under This Penetrating Antiseptic**  
You can have a clear, smooth, velvety skin if you will only try the pure cooling liquid D.D.D. It soothes the tissues and drives away pimples, blotches and other blemishes. ITCHING STOPS INSTANTLY. ### HIGH PRODUCTION AT ANGUS

Here is shown one small corner of the Angus Shops. Inset, a section of the great machine shop. Lower left, transportation within the Shop and right, setting the wheels for a new 3100 locomotive.

Canada's increasing agricultural, industrial and commercial prosperity is making more and greater demands upon transportation and the country's railways must always be a long way ahead of the times in order to keep up with them. That, in a town within a city, sixty-five hundred men with a monthly pay-roll little short of a million dollars will be engaged all winter building, equipping and repairing rolling stock for one Canadian Company reflects not only the immediate benefits of a record crop year, but the encouraging and inspiring confidence of its directors in the continued prosperity of the country. This is particularly true when one realizes that the Angus Shops of the Canadian Pacific which employ these sixty-five hundred men and through them support, say, a community of at least

twenty-thousand within the city of Montreal, is not engaged in the actual construction of its freight cars and locomotives, that the frames for the passenger equipment are purchased outside and that these shops alone do not handle the whole of the repair work of the system, there being other shops in the west.

The present volume of work and the probability of further increases are due to the orders for rolling stock that have been placed with various Canadian steel car construction companies. The steel frames are built at Hamilton and other points in Canada and are taken to Angus where the finishing is carried out. One hundred and six passenger cars, including sleepers, diners, first class coaches and other equipment will have to be handled shortly by the Angus

shops, while at present the construction of 40 cabooses, 7 snow ploughs and 2 rail hoists is going on. At present, also, eleven repaired passenger cars and 120 freight cars are being turned out daily, and every five-hours and forty-five minutes shop time, an overhauled and repaired locomotive is returned to service.

The Angus shops of the Canadian Pacific Railway, situated on the eastern outskirts of Montreal, are the largest diversified railway shops maintained by any railway on the continent. They cover 300 acres of ground and handle each year upwards of 20,000 railroad cars of various sorts and descriptions. The first two of the 3,100 type of locomotive, the largest in the British Empire, were built at Angus by the company's own employees and from its own design.
